

Robert J. Remenar President and CEO

Robert J. "Bob" Remenar is the President and CEO of Nexteer Automotive and a member of the company's Board of Directors. To continue the company's heritage of success he is charged with guiding a dedicated and talented executive staff, supported by experienced management teams and a committed global workforce.

Remenar assumed his position effective October 2009, upon Day One of Nexteer Automotive. He had served as president of the former Delphi Steering Division since 2002. During that time, Remenar was also a Delphi Corp. vice president and member of its strategy board, executive champion of its program management task team, and executive customer champion for the company's General Motors Corp. business.

Remenar began his automotive career in 1985 with Saturn Corporation. Later with GM, Remenar held various executive roles in corporate financial analysis, health care cost analysis, employment cost analysis and compensation, policy development, and employee relations. At Delphi, he held several senior-level executive positions in HR, finance and business line operations prior to being named president of the global Steering business.

Remenar earned a bachelor's degree in business administration from Central Michigan University and a master's degree in business administration from Walsh College. He is a member of the President's Advisory Council of Walsh College, the Dean's Business Advisory Council of Central Michigan University and was formerly a member of the board of directors for Blue Cross Blue Shield of Michigan.
